Subject: ROC- Conversation w/Lisa Wayne, Ft Mojave Business Director

Ms. Wayne, Ft Mojave's Business Director, returned our calls. She stated that once they received a workplan from their contractors they presented it to and received approval from the Tribal Council, this occurred on August 27, 2013. When Bobby Ojha, EPA, inspected the site, she advised him of their plans to replace all 3 25-year old USTs with DWFB and to replace the dispensers. The delay has occurred because of their tank order. However, she believed she was still within the appropriate response timeframe.

We are invited to attend a 9:30 a.m. call with Ft Mojave and their contractors.
